THE CLIPPER SHIP GOULD
 1800 Tons, now on the stocks in Mass. Gould's Ship Yard. Will be constructed expressly for Parker, Middle of October next. It is confidently expected the Goulds Dockery will make one of the quickest passages in the world. (a part of the freight being already engaged). She will have excellent "between deck" and house servants expressly to look after their wants—which arrangement will give those wishing to forward their goods to labor for a subsistence, and who would wish to cook a house on the golden shores of California, where they will find this a better opportunity than ever before offered in the United States—more especially in the season of the ship, and families of Italian descent extra accommodations, will be furnished with State Room already engaged for February, the time when misling operations commence, will meet the wishes of a large class in California, and not return, will have ample time between this date and the time the ship sails. The Goulds in a part of their Passage or Freight Money, can have it by giving satisfactory security.

California Steamers,

Carrying the United States Mail.
5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be dispatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed direct to the Pacific Coast without any extra expense. This is the only line giving coastwise tickets, including meals, on the Isthmus.

Travels made in four days, entirely by daylight, thus avoiding the great exposure by night in open boats, and the expense, and the risk of dangerous and hazardous navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately after the arrival of the Atlantic Mail, and passengers, thus securing the shortest route to the Pacific Coast.
